

Maxi Box 800x2400 – BCMXP2400

Description

Pallet Spec or [View full product spec PDF](#)

These maxi box pallets are made from Recycled PP, anthracite and are cut and joined through metal parts.

The lids are made from recycled PP, anthracite and are cut and joined through metal plates and rivets.

The extruded PP sleeves are produced as usual to the requested height.

All boxes are made to order – please enquire using the orange link above stating your specification requirements.

The sleeve is made with a rimmed contour to prevent injuries and on request can be fitted to the pallet and the lid with 8 hooks.

The upper part of the lid is made with a special structure to allow the stacking of the box.
